

PIYUSH SHARMA

Data Analyst | SQL • Python • Power BI • Excel

piyushsharma23012007@gmail.com | +91 9211419838 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Detail-oriented and motivated Data Analyst (fresher) with hands-on experience in building interactive dashboards, performing exploratory data analysis, and deriving actionable business insights. Proficient in Power BI, SQL, Python, and Excel. Passionate about transforming raw data into clear, decision-ready visualizations.

TECHNICAL SKILLS

Data Visualization: Power BI, DAX, Power Query, Microsoft Excel (Pivot Tables, Charts)

Programming & Analysis: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL

Data Concepts: EDA, KPI Tracking, Data Cleaning, ETL, Star Schema Modeling, Drill-through Reports

Machine Learning: Foundational knowledge of Machine Learning concepts and workflows (exposure)

Tools & Platforms: GitHub, Jupyter Notebook, MS Office Suite

PROJECTS

Adidas Sales Analysis Dashboard | [Power BI](#) | [Power Query](#) | [DAX](#) | [Excel](#) | [SQL](#) | [Python](#) | [GitHub](#)

- Built a multi-page interactive dashboard analyzing Adidas sales data (2020–2022), tracking KPIs such as revenue, profit, orders, and profit margin.
- Developed DAX measures and drill-through reports to identify top-performing products, regions, retailers, and customer trends.
- Delivered data-driven business insights to support strategic decision-making.

Finsight Finance Analysis Dashboard | [Power BI](#) | [Power Query](#) | [DAX](#) | [Excel](#) | [GitHub](#)

- Developed an interactive financial analytics dashboard to monitor revenue, profit, cost, and profitability trends across business units.
- Applied data cleaning, star schema modeling, and DAX measures to produce accurate KPI tracking and actionable insights.

Blinkit Sales Analysis Dashboard | [Power BI](#) | [Power Query](#) | [DAX](#) | [Excel](#) | [GitHub](#)

- Built an interactive sales analytics dashboard evaluating Blinkit's grocery sales, outlet performance, product categories, and customer ratings.
- Used Power Query for data transformation and DAX for KPI calculations; identified high-performing outlets and top-selling products.

Customer Churn Exploratory Data Analysis (EDA) | [Python](#) | [Pandas](#) | [NumPy](#) | [Matplotlib](#) | [Seaborn](#) | [GitHub](#)

- Performed end-to-end EDA on a customer churn dataset including data cleaning, feature distribution analysis, and visualization.
- Identified key churn drivers: customer tenure, monthly charges, and total spending — generating actionable business insights.

EDUCATION

Bachelor of Computer Applications (BCA) — 3rd Year

Indira Gandhi National Open University (IGNOU)

Expected: 2027

Senior Secondary (Class XII) — CBSE

G.B.S.S.S (Soami Nagar), New Delhi

2024

Secondary (Class X) — CBSE

G.B.S.S.S (Soami Nagar), New Delhi

2022

CERTIFICATIONS

Data Analytics with AI

Oxford Software Institute

2026

Excel for Data Analysis

Tutodude

2026

Python for Data Analysis
